

Educational Affairs Committee Report 2016

Prepared by Fred M Eckel Co-Chair

According to the Bylaws “the Educational Affairs Committee is charged with the educational needs of CPFI regular and student members”. By tradition, the primary role this Committee plays is planning the educational content of the annual meeting. As Committee Co-Chair I was remiss this year in actively involving the Committee in meeting content planning. I did receive some topics and speaker recommendations from Committee members which I considered in planning.

Next year I plan to involve the Committee early and frequently in planning the annual meeting. I have assumed responsibility for planning every CPFI Annual Meeting. I am growing older, have reduced my national pharmacy involvement and realize I have less time before me than behind me so assuring that there will be continuity to planning the annual meeting needs more active committee member involvement. If a CPFI member is interested in assuming the role of planning the annual meeting program, I would like to begin working with them. Please let me know if you are interested.

Respectfully submitted

A handwritten signature in black ink that reads 'Fred M. Eckel'.
